My Path From Rags To Riches

THE \$150 A DAY SYSTEM

**24/7... EVEN IN YOUR SLEEP...
FULL SUPPORT!**

Introduction:

Hello, and welcome to the \$150 a Day System!

Before we begin, I must let you know that I cannot guarantee your results with this system. You may end up making more than \$150 a day (possible), or you may end up making less (also possible).

The reason I say \$150 a day is that it's both fairly conservative and completely life-changing.

For most people, this extra \$4500 per month represents a MASSIVE income boost. For many, this on its own is enough money to live comfortably on.

And that's my goal in writing this book... to help you live comfortably.

No more financial worries... or at least, not nearly as many.

Before we begin, I have an IMPORTANT announcement to make...

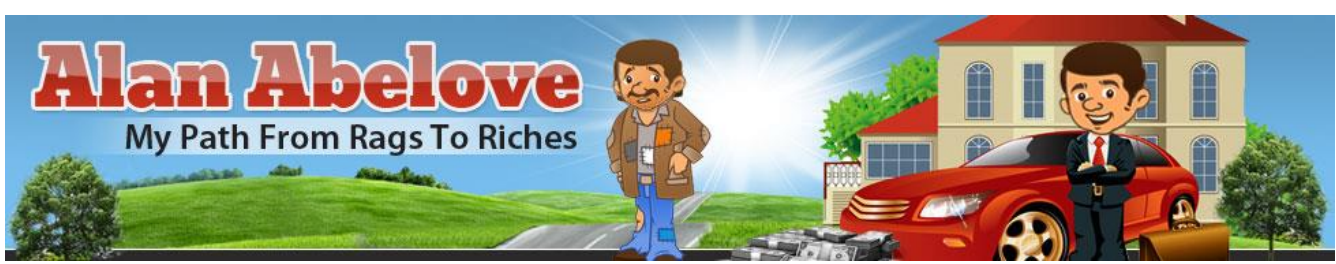

MY PLAN IS TO FOLLOW-UP WITH AN EMAIL OR TWO TO GUIDE YOU ALONG!

When you signed up to receive this e-book, you also automatically enrolled in my OnlinePassiveIncomePDF list. Don't worry, it's 100% FREE and always will be. :)

If you don't feel like you need the emails, then by all means unsubscribe. I promise it won't hurt my feelings one bit.

All I ask is that you go through the first 3 lessons before you make up your mind. You know, so that you can at least have the experience of receiving my best advice without paying a dime.

Either way, it's great to have you here with me now. So let's begin...

Part One: Can You Really Make \$150 a Day Online?

The answer to this question isn't only "yes," but that it's actually kind of *sad* if you're only making \$150 a day online. BILLIONS of people hang out and shop online. BILLIONS.

If you don't think that a mere \$150 a day out of the BILLIONS being spent can blow straight into your pocket without even making the most microscopic of dents, then you're delusional.

It's very feasible to make money online, very DOABLE!

The problem is that most people totally go it alone.

Or they follow the advice of people who couldn't actually care less if they succeed or not. It's easy to fall prey to someone who just wants to sell you their training or "1-click software" program.

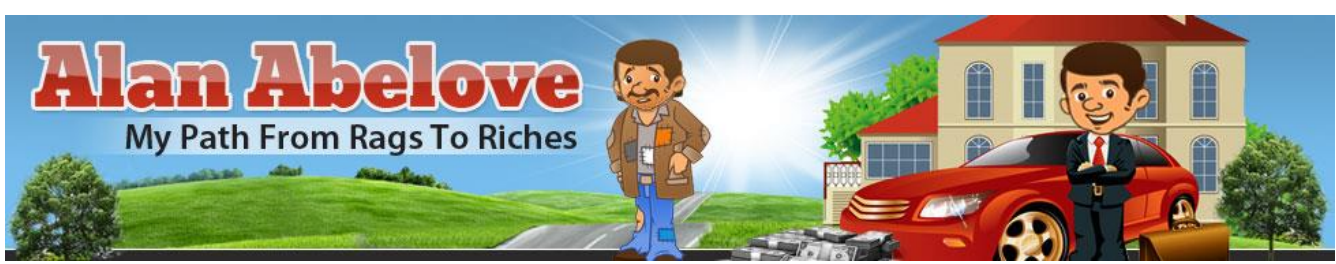

The reason it's so easy is because they don't give two craps about YOU making money. They're really just in it for themselves. When they launch one of their products, here's what they're thinking...

"How much money can I make? How many sales? How many affiliates can I get to promote this? How can I get these buyers to buy my upsells?"

Conversely, here's what they're NOT thinking...

"How can I change as many people's lives as possible? How can I create more millionaires? How can I have a lasting impact on the financial lives of hundreds, or even thousands of my fellow human beings?"

Now, to be fair, two points must be made. There do exist people who their main walk and their main talk is about helping others, and I merited to be connected with some of them. Take [John Thornhill](#) for example, I have been hanging out in his

inner-circle for over four years, and he certainly walks the walk and talks the talk about helping his fellow marketer. He instructs us, and I have heard this from him many times, that the starting point in Internet Marketing is to be a giver. The more you give, the more you will get back in the end.

Still, without focusing on John per se, nobody is going to invest all that time that it takes to help others if he is not going to get something himself.

There are no altruistic people in the Internet Marketing sphere, everyone is online to run their own online business. That is clear. Just that amongst those who share this, this, let us call it now this *strategy*, this *business model*, that the more you give the more you gain, there are some people who know how to give, and those that don't really embrace the ideology to understand what giving means.

Moreover, there is a second point. The steps that it takes to make a sale are endless. Hundreds. From tech issues of setting up an online presence to actual salesmanship. And if you are missing a step, in other words if there is one step that you are not good at, *you may not make the sale*.

Most mentors are not successful in passing over to their students *everything* the student needs to know to be successful. Some mentors don't speak out important details because they feel that it is self-evident that everyone will realize.

Other mentors may skip steps because they themselves are not good at it, and they have it done by others, and they certainly don't know how to teach it.

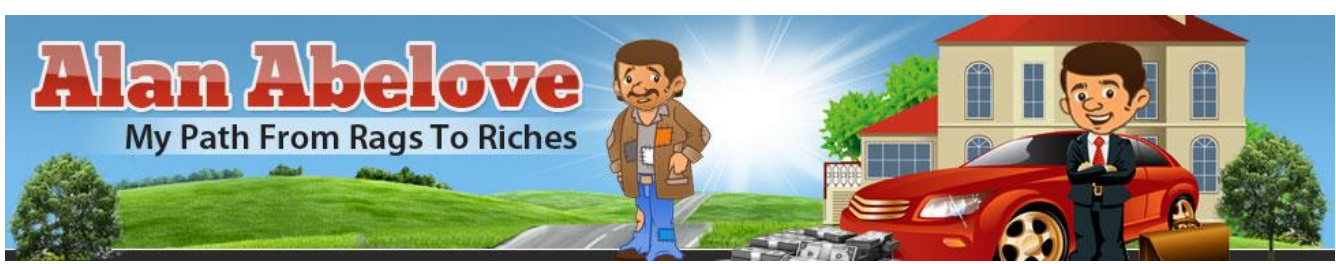

I myself have spent \$20,000 on mentors, and even though I learned a lot, bottom line I had a *couple* of online businesses making me a whopping \$150-200/month.

Until I found this.

So again, the two reasons why most people never make any money online are...

1. They go it alone. Or,
2. The people they trust to "show them the way" aren't really invested in their buyers' success.

Those really are the main two reasons.

Sure, a lack of effort also plays a role. We as individuals each need to examine our own mindset, work ethic, and emotional hang-ups. In other words, we do need to take some personal responsibility.

But the right teacher will help us overcome our hurdles.

The right mentor will move mountains to help us get out of our own way.

And where do we find such a mentor? They are honestly far and few between.

The ones who DO care about your success in the deepest sense usually only care because their success is directly impacted by your success, as above. But you know what? That's okay! In fact, it's better than okay. That's exactly what we WANT!

I mean, would you rather have someone helping you out just because they're a "good person with a kind heart and a beautifully generous soul..."

Or would you rather have someone helping you that will lose their freakin' home if you don't get off your ass and start making some money?

I'll take that 2nd person any day of the week. They've got a very real-world reason to care about you and help you. Your **not** making money will cause them **pain!**

So where can you find such a person? Where can you find an individual who can help you make \$150 a day like it's nothing... and then push you to earn much, much more than that over time?

Where, oh where?

Part Two – Finding Your Mentor:

In order to make \$150 a day, you don't just want a mentor with some good ideas floating around his or her head and insane amounts of motivation burning in his or her belly...

You need a mentor who already has a **system** in place.

I'm not talking about a concept, either.

I'm talking about a tangible system...

1. Follow-up emails.
2. Products to sell.
3. A membership program.
4. A community of people sharing the same goal.
5. A multi-tiered affiliate program.
6. A mentor whose entire business is dependent upon your success.

That's right, you won't make \$150 a day with fluffy, feel-good, "Ra! Ra! Ra!" nonsense. You need structure... and a system... and a money-making infrastructure already established, with other people just like you already being paid out daily.

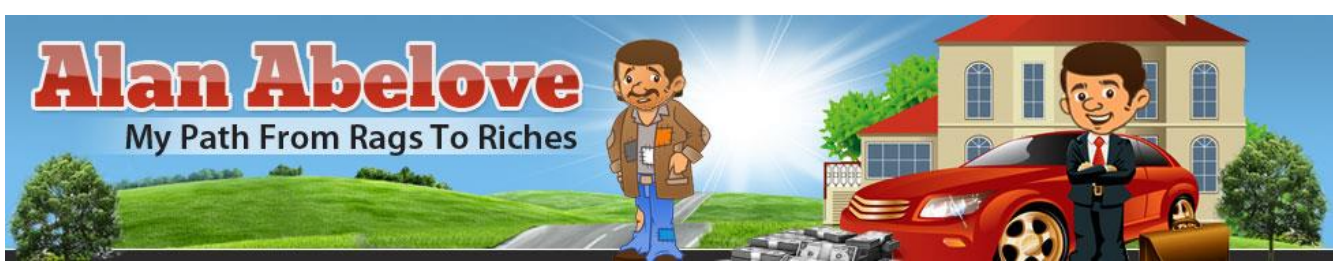

Starting to get excited? ;)

Listen, there are many money-making methods out there.

You've got [product creation](#), [affiliate marketing](#), CPA marketing, [blogging](#), Adsense, arbitrage, providing services... and that's not even scratching the surface.

But these all fall well short of what I'm proposing that you embrace today.

What I'm proposing that you embrace today is a little something known as "OPF marketing."

And what does OPF stand for?

Other People's Funnels.

There are many top-named Internet Marketers who have funnels already in place, which they have been building for years. And there is already an email follow-up sequence in place to draw the buyer further in to the funnel. And who also has a back-end high-ticket offer which not offered to the typical Tom, Dick, and Harry affiliate like you and me.

There are even those, and I will show you some, who are ready to promote your people through the funnel (note: they do all the work), and some will even give you 100% commissions. In this way they will make you happy, and you will be motivated, and they themselves will be delighted to get a small percentage of the buyers to take the back-end high-ticket offers, (where the vast majority of the money is made). And for this some will also pay you something, like 50%.

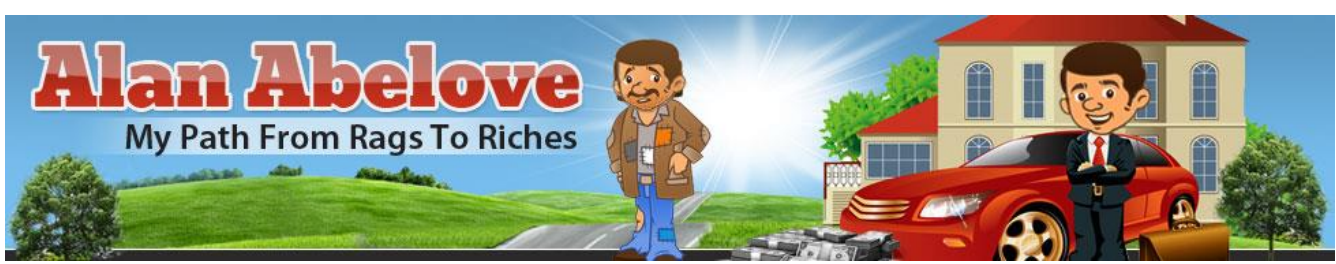

For them, it's no sweat off their ass, they've got the marketing infrastructure already in place. Whatever new leads you bring in for them is like a fatty desert. It's truly a win-win-win situation.

What this means is that you simply send people to a special page that gives away something for free. If you're already familiar with Internet marketing, then you'll clearly recognize that I'm talking about a squeeze page.

But the type of squeeze page that we're talking about here takes your prospects into Never Neverland, which is not hard to get in to, but not easy to get out of (if the funnel owner is any good).

Or, for example, (regarding a different kind of OPF than what I mentioned above), the squeeze page will direct the lead into a free membership platform with a structured payout system. Some of these OPF's will actually pay you just for bringing in free leads! This is known as a PPL (pay-per-lead) program.

You simply send people to a special squeeze page and once they opt-in and sign up for a free membership, you earn a buck or two. Just like that. As of this writing, even though I recommended one in the last edition, in this edition I am not working with any PPL's.

But anyway these systems are constructed to get people to become members. It truly is easy money. **But it gets so much better...**

In these membership sites you also end up with tons of fantastic perks. Yes, some of these perks require you to upgrade. But you will receive nice affiliate commissions for tools that are promoted within the system. Email autoresponders, tracking tools, paid traffic sources, educational products, blog themes, site builders... you name it!

And additionally, whenever the people who you refer to the program upgrade their accounts you will get a commission on their upgrade.

So again, if any of your referrals make a purchase of anything (in most cases), you get paid! And without doing any of the work, because again, the marketing infrastructure is already in place, the owner is doing all of the work.

But it gets so much better...

Because the owner/operator of these OPF's will actually send your referrals through an automated email follow-up system. And the emails are chock-full with YOUR affiliate links! Why would he do that? Simple, in order to sell your lead more of his products, or his friend's products, and you are the affiliate.

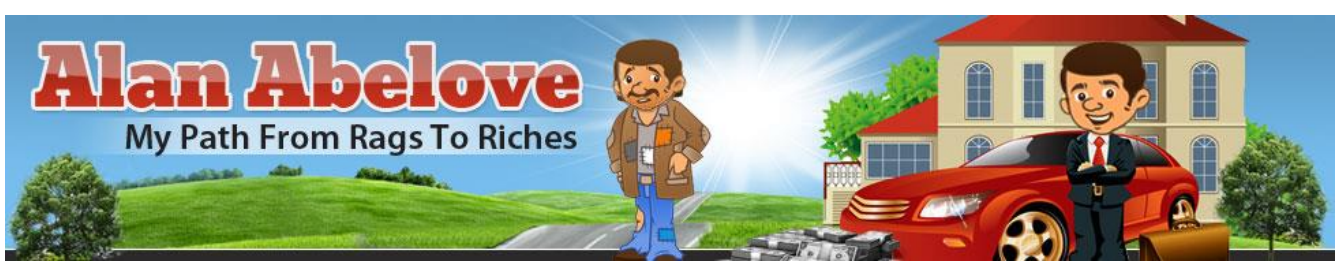

This means that you'll be getting paid from many different sources, for the sale of products that you NEVER have to promote. All you do is simply send people to that one special squeeze page and everything else is taken care of by the funnel owner.

Now of course, there are many of these OPF's out there. So which one should you choose? Well, the short answer is ALL OF THEM! (Allow me to clarify that: all of the OPF's that we tested and that the conditions are excellent, and that they seem above-board, and that you can be accepted into). Now,

"But doesn't this mean that I'll be sending my traffic to lots of different squeeze pages? How can I keep track of that? Won't it dilute my efforts?"

That would be the wrong way to go about it.

But before we talk about the right way, let's take a quick look at some of your options when it comes to OPF's. Each one is a little different from the next, and the

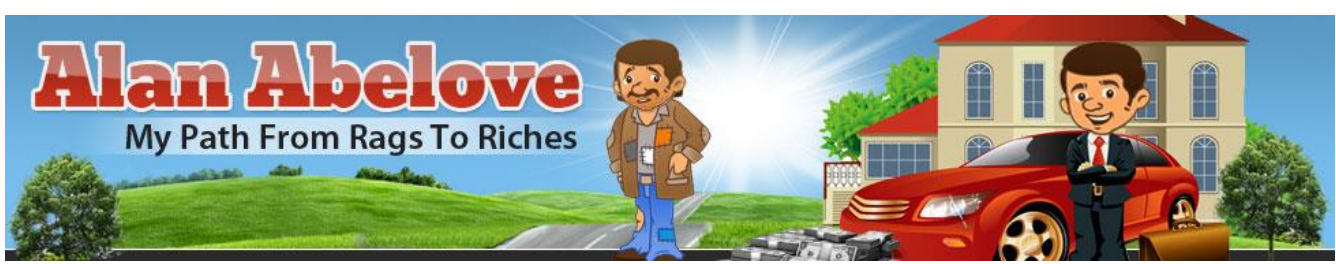

distinctions do matter. So let's talk about 'em.

But on a final note about "finding your mentor," these OPF's make great mentorship programs for a few key reasons...

1. The operators want you to succeed like crazy. That's why these membership sites are teeming with some of the best training you'll find anywhere. They make sure the training is top notch, because they actually want and need you to get results!
2. They have members-only FB groups where you can get help from members of the community, including your sponsor (most likely), and the owner. This is huge. A community of people sharing the same goal, helping each other to further build the community... which ensures that we can all keep making money for a long time! :)
3. They do 99% of the marketing FOR YOU. You just bring people through the front door. The OPF's do all of the selling, upselling, down-selling, cross-promoting, email marketing... heck, some of them will even put you in a traffic pool and send traffic for you! They want you to be happy and successful!

So now that you know why these OPF's are some of the finest "mentorship opportunities" around, let's now look at a few of them individually...

Part Three – Meet Your OPF's:

So what I'm going to do at this point is simply give you a list of all of the OPF's that I have already signed up for and tested, and that I am confident that you will gain from.

I am currently continuing to sign up to the OPF's that were recommended to me. That way I can see if they are something that I want to recommend to you. To that end I will be updating this PDF ebook from time to time, so you should check if there is a new version. I will email you also (if you don't unsubscribe).

Now, they're not all free to join, but some are.

The best rule to follow here is to start off for free, start making some money, and then use your profits to either upgrade your free accounts... or sign up for other paid OPF's.

Now, you need to realize that not all OPF's are structured the same... at all.

Some are memberships, others are straight sales funnels that you license the rights to promote as your own, others are... well, let me just list them, and then we can talk about them afterward.

3. [Your Success Advantage](#) (this is not free to join)

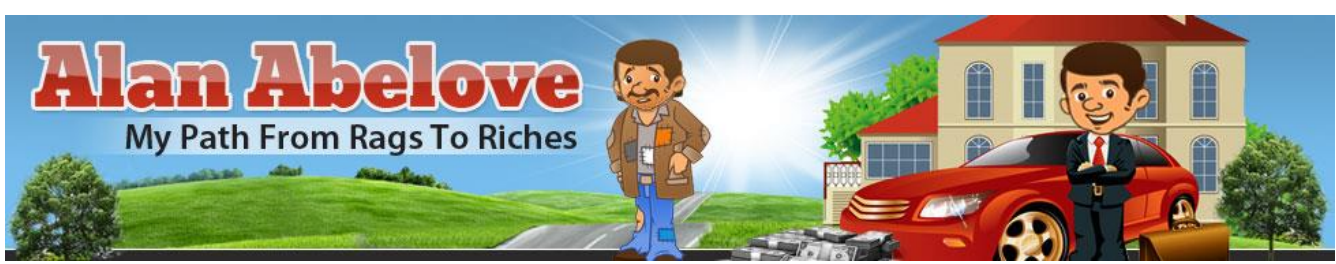

Funnel-Based OPF's – Sign Up for These As Soon As You Can:

To be part of the Funnel-Based OPF's, usually you have to purchase a license.

1. [7 Figure Franchise](#) – By Michael Cheney. I am sending you to an intro webinar which Michael gives in order to explain the done-for-you funnel. There at the webinar there will be a link to sign up. But I really suggest that you hear what he has to say first, because this isn't for everybody. Besides the link above you can also click on this image:

2. [Automated Commission Enterprise](#) – By Omar Martin. As above I am sending you to a webinar where Omar explains the whole thing to you. I urge you to take the time to hear what he has to say. Omar is a bit of a stickler that people who use his ACE system carefully follow his instructions.

So these are your OPF's, two free ones, one inexpensive one, and two less inexpensive ones, and you'll certainly want to consider them all, especially the free ones.

Let me explain what each is all about...

Funnel Franchise:

This is a referral based membership site with two different membership levels: Free and Elite. Even as a free member, you have full access to the system. You can access all of the training videos of the owner and operator, Mark Wightley, with the exception of the additional training videos which are in the Elite section.

You populate your site with your affiliate links and earn commissions on anything that's promoted to your referrals throughout the system.

Mark will also guide you with what you can write in your email follow-up series. These emails you can load into your autoresponder to enhance your revenues and even promote a back-end high-ticket product, for which you make a small commission.

When you upgrade to Elite, your commission percentages rise significantly. You are also able to start earning tier 2 commissions on the people you refer to the system, commissions on what *your referrals sell to their referrals*. And Mark will even put you in his weekly traffic rotator, where you'll end up getting free traffic without even working!

I recommend starting with this one because the free level is so generous. You can earn really good income just as a free member alone. With many similar OPF's, you need to upgrade before you get a funnel to promote, or earn commissions on recommended affiliate products, or get paid for the higher-ticket sales.

With Funnel Franchise, you get all of these benefits right out of the box! You just direct traffic to the squeeze page, and Mark will offer him his hand and lead him through the rest of the funnel. You bring the lead to Mark, and Mark will do all of the selling using your links.

And that's why I can't recommend it strongly enough. Plus, Mark is a heck of a great

guy who is about as knowledgeable and helpful as they come.

There is one tool which is promoted in Funnel Franchise which does cost money, and that is a page creator. In the instructions for setting up the system, Mark refers to this as an “Essential Tool”.

He uses the page creator to easily build your squeeze page for signing up your referrals, plus other pages, the thank you page for example. In the instructions there are three choices for which page creator you want to sign up for. They all cost money.

Still, I list Funnel Franchise as one of the free OPF’s, because participation with the page builders, in a technical sense, is voluntary. Just that if you don’t take the page builder, then you’ve got to be technically savvy yourself.

I recommend Funnel Franchise very strongly, Mark is a great guy, very knowledgeable, very active, and the traffic and marketing trainings inside the members area are excellent. And you can still make significant money when Mark promotes the other tools to the people that you bring in.

My Online Startup:

My Online Startup works like this: Entrance into the program is for free. As a free member you and your referrals are going to get access to a whole course in all the facets of internet marketing. A number of modules with like 50 training videos in total.

As a person stays within My Online Startup and gains trust with the system, he will be gently coaxed to invest in certain tools for his own good, for his own advancement. And these are going to be all with your links.

There is a potential, even as a free member, to earn close to \$400 for each lead to whom you refer My Online Startup, plus recurring monthly income.

Thus, My Online Startup will be super easy to promote. You set up your system, and then just give away access to such a free overall course in internet marketing.

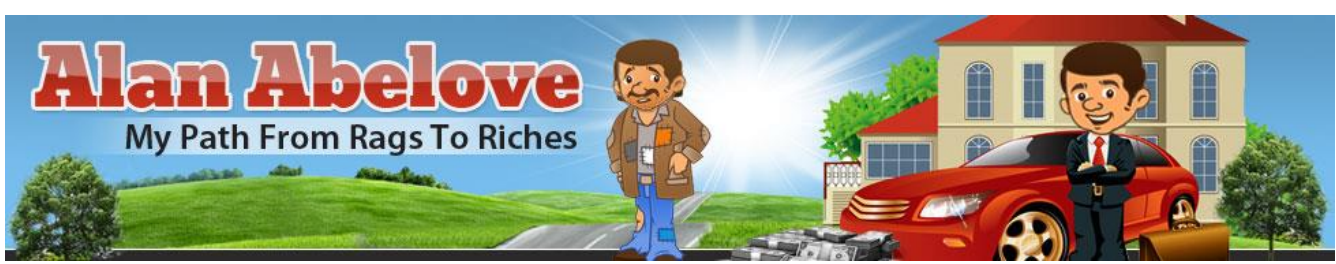

When I first entered into this niche, the forerunner of My Online Startup was more like Funnel Franchise in the sense that there was a rich free version. Now with the brand new launch of My Online Startup, I am pushing both, but My Online Startup even more than Funnel Franchise, because I think that My Online Startup will be easier "to sell". Meaning that all that you have to do to get signups is to offer them a free internet marketing course.

That said, you definitely want to be signed up for both.

I'll tell you why soon. Yes, there's a method to the madness!

But for now, grab your free My Online Startup account by [clicking here](#).

IMPORTANT: With both My Online Startup and Funnel Franchise, you can earn recurring commissions on certain products! Sales of autoresponders, tracking tools, and monthly payment plan upgrades can bring you ongoing monthly revenues! And that's in addition to everything else! Visit [My Online Startup](#) and [FF](#) now!

You'll want to start sending traffic right away to these two OPF's. So I secured for you free access to a piece of software that was put out by Patric Chan. This coool piece of software takes any web page and adds for you a kind of a small popup with your offer on it.

The idea is that, you know, we all share content on social media, right? So here, you can take that same cool content (produced by someone else), and put your own banner on it. Let's say it makes sense to share something about passive income. So you can take an article written by anyone, and share it, and your own pop-in will slide in with your link to Funnel Franchise or My Online Startup.

This to me is just too far out. [To grab to software for no-cost, click here.](#)

Now don't think that just because we covered these two OPF's, we're done. These just happen to be the two that I recommend you START with... as in, get them off the ground making you money and then go back to all the others.

The idea here is to be making money from as many of these OPF's as possible!

Let me tell you very briefly about the others, in no particular order..

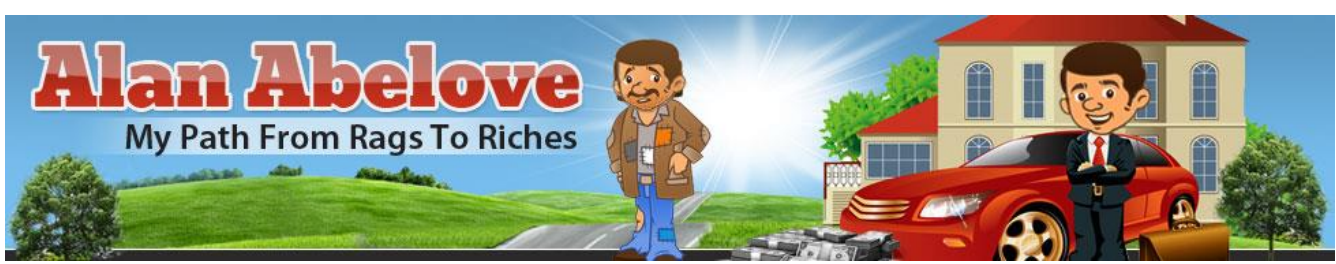

Your Success Advantage:

Your Success Advantage is a brand new program run by Matthew Graves. Matthew is someone that I have been working with for almost 10 years. He has been for me a teacher, a friend, and in certain projects a partner.

Matthew's YSA is a program similar to Funnel Franchise in the sense that it is built such that you bring the lead to the signup page, and once he creates an account, Matthew guides him through and shows the lead different things that can advance him, including things for sale which will be with your affiliate link

There is a critical difference though. Matthew has a completely different style in communicating with his subscribers than most other people. Most other Internet Marketing people write to their subscribers as marketers. Matthew communicates as a friend who wants to help.

This is a skill that you should definitely acquire, and you are not going to be able to acquire this from anywhere else that I know about. This is why even though Your

Success Advantage has a monthly charge, in the end of the day I believe that he is going to do better than Funnel Franchise.

For more information, [click here](#).

If you only want to get a feel for Matthew's style, which I recommend that you do at the minimum, [click here](#).

If you're still having difficulty grasping what it is that I'm suggesting that you actually do with this, don't fret. I'll be covering that in the next part.

But just to summarize here what we have so far...

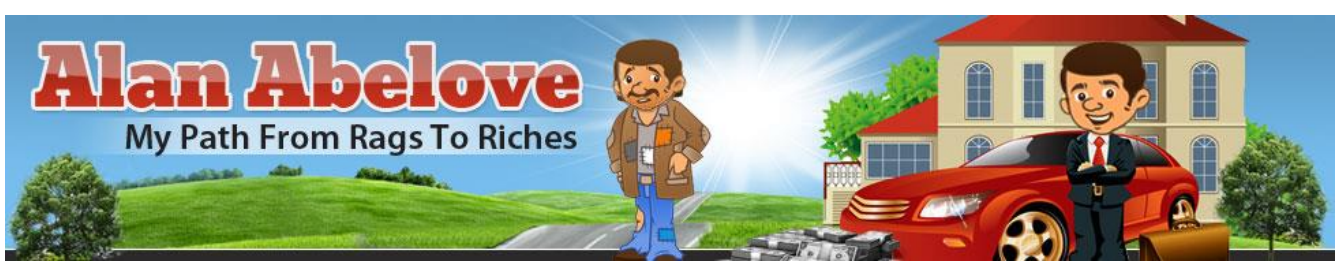

1. You create free accounts with Funnel Franchise and My Online Startup.
2. You drive traffic to the respective squeeze pages with the free traffic tool and earn some money.
3. You pick up Your Success Advantage and similarly drive traffic to it.
4. Whatever Mark, Chuck, and Matthew promote and makes sales on, from now until the end of time, YOU make money on! And we're talking NICE commissions, like up to \$100 or more!

The traffic tools mentioned above and below are truly effective at helping your referrals get better results with My Online Startup and Funnel Franchise, and as such, your tier 2 commissions will explode!

IMPORTANT: With both My Online Startup and Funnel Franchise, you can earn recurring commissions on certain products! Sales of autoresponders, tracking tools, and monthly payment plan upgrades can bring you ongoing monthly revenues! And that's in addition to everything else!
Visit [My Online Startup](#) and [Funnel Franchise](#) now!

Now don't think that just because we covered these three OPF's, we're done. These just happen to be the three that I recommend you START with... as in, get them off the ground making you money and then go back to all the others.

The idea here is to be making money from as many of these OPF's as possible!

7 Figure Franchise

This is Michael Cheney's "Super Funnel." Basically, for \$2000 (Yes, it's steep... but it really shouldn't take you long to earn that right back. Keep reading...) you buy the right to promote some of his specific products, that leads off with a questionnaire-style lead capture form, which has been proven to capture the referral the best.

Once the prospect enters his or her email address in the form, the process has begun. At this point, in addition to landing directly on the sales page of the first product within the "Super Funnel," these leads begin receiving DAILY emails from the system's creator, Michael Cheney. For months Michael will send him very interesting emails, promoting to them many of his famous successful best-selling products.

Michael is a 7-figure marketer who is incredibly aggressive with his marketing. In other words, he WILL get you results. And the results he gets you are sales of his dozens of products, all of which you automatically become an affiliate for.

Now, each product that *he sells for you*, you earn a 100% commission on. Yes, you keep all the money, and that's throughout the entire funnel! The only exception is his high-ticket, \$2000 offers, for which you earn a 50% commission (a thousand bucks).

[Watch Michael's Video Here >>](#)

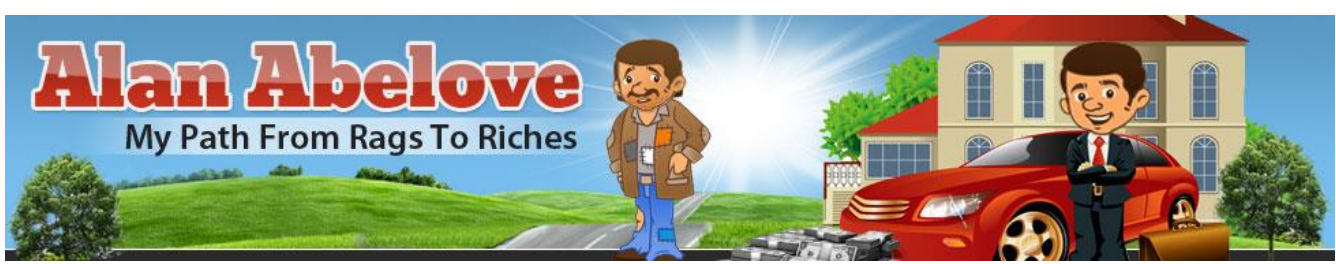

And if you'd like to see what the entry-level capture page looks like, [click here](#).

ACE – Automated Commission Enterprise

Like Michael Cheney, Omar Martin also built a funnel of funnels. It works along a similar way, just that the products are different products, the best of the best of Omar Martin's collection. Omar is a bit less aggressive than Michael, but he has a quality promotional email follow-up sequence all set up and in place, so that when the person enters the funnel, he is systematically promoted to on a daily basis.

[Watch Omar's Video Here >>](#)

Like I wrote above, I am currently testing other OPF's in order to see whether they live up to the hype, and whatever I have been through I have already listed above,

and whatever comes afterwards I will let you know.

So let me ask you a question...

Are you feeling overwhelmed?

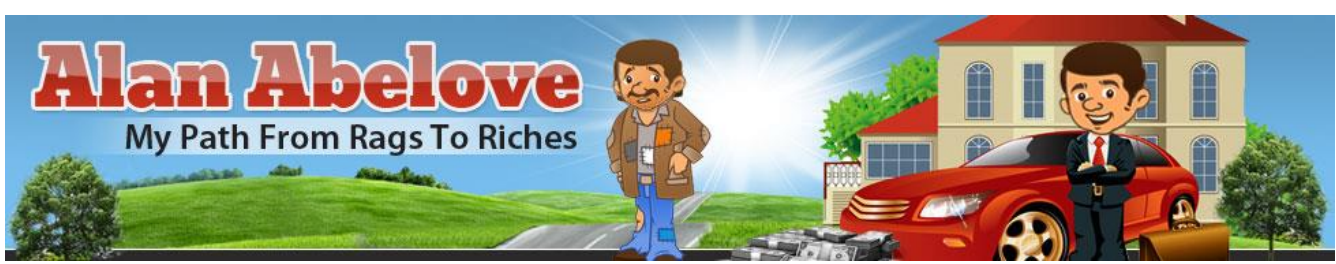

I know that it seems like a lot. There are so many OPF opportunities, and they all have upgrades to consider (or they require an upfront investment to gain access)...

But we've already discussed this, so please breathe easy.

Even if you're flat broke, you can do this! And I do have a great strategy for you to employ, although I do want to keep this book relatively short. But I'll still give you the step-by-steps so that you can start making money right away.

Ready?

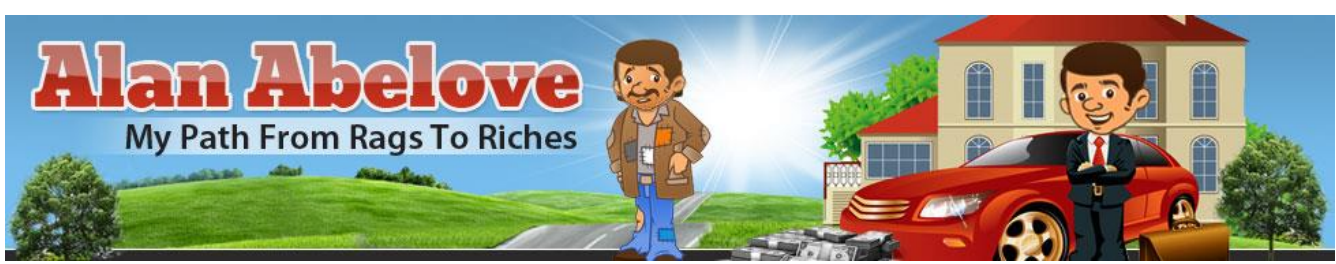

Let's begin...

The \$150 a Day FREE Method:

1. Grab your free My Online Startup account [here](#) and your free Funnel Franchise account [here](#).
2. Start a new Twitter account. Do a YouTube search for instructions on how to do this, if you're unfamiliar with the process (In other words Google "how do I open a Twitter account").
3. Pick up [this free software](#) and watch Patric's videos on how to use it.
4. Using the software, create one ad that takes people to Funnel Franchise and another that takes people to My Online Startup.
5. Do a Google Search for "Twitter Mass Follow" and download the extension (My mentor uses this on Chrome. Dig for a Twitter Mass Follow extension for your chosen browser). I mention to you that personally I have not yet implemented this Twitter Mass Follow strategy, because I am working on other traffic methods. I trust that this works well because I know my mentor.
6. Each day, use this extension to grow your Twitter followers. Simply search (inside Twitter) for people in the "business opportunities" and/or "make money online" niches. Follow their followers using the extension!
7. Using [the free tool I linked you to](#), keep linking to cool and exciting new pages online, where your ads will be displayed. Again, just take action and get the tool... and you'll know exactly what I'm talking about. There's no cost, it's free.
8. Just keep creating new ads for new pages and send your Twitter followers to those pages using the link that the software generates for you. Patric's videos will explain this to you better than I can in text form. Just get over there!

Basically, the software "hijacks" any page of your choice, allowing you to put a big banner with your face, message, and link right on it.

So link to My Online Startup and Funnel Franchise. Then, send out Tweets to your followers telling them to "check out this video" or "read this awesome article about _____" (whatever the page you've hijacked happens to be about... WATCH PATRIC'S VIDEOS for clearer fuller instructions).

And then, when they land on those pages, your big, beautiful advertisement will be front and center, and people will sign up for your OPF's through your link!

I hope this makes sense. It's a good strategy because the subject of your tweets can always change... and you come out smelling like a rose because you're linking to cool content you found, rather than just spamming junk. ;)

And yet you never have to create the content.

You don't need a blog.

You don't need a YouTube channel.

All you need for this method to work are...

1. A free Funnel Franchise account.
2. A free My Online Startup account.
3. A free GetResponse account (for Funnel Franchise... watch Mark's videos), or a Builderall or one of the other page builder accounts (which is not free).
4. This free piece of amazing software.
5. A free Twitter account.
6. A free "Mass Follow for Twitter" plugin/extension.

Super simple.

Then, once you're making decent money with Funnel Franchise and My Online Startup, upgrade your accounts and keep rocking this Twitter method for a while.

Once you've maxed out on those upgrades, start investing in new OPF's, especially [Michael Cheney's](#), that is the one for which I had the most success.

They're definitely sound investments.

Of course, if you want to take this business to the top, and you do have a few bucks to invest right now, then please proceed to the final part of this book...

The \$150 a Day **ULTIMATE** Method:

If you're serious about your success, and I mean really serious...

Then you need to set up an actual business for yourself. And that business, my friend, should come in the form of a "master funnel" that you control.

In this particular case, a "master funnel" simply means an automated follow-up email series, (like 100 or so emails) that sends out daily emails that you've pre-loaded. If you want to see how this is done, sign up for either [Michael Cheney's video presentation](#), or [Omar Martin's video presentation](#), and see how they write to you promoting their products.

That's the best way to learn, by watching what the big boys actually do. To join their list costs nothing. I recommend it. I grew from this.

Each of these emails should both promote different OPF opportunities, and aim to facilitate the massive success of your email readers. After all, when your readers succeed, you succeed (that's where the tier 2 commissions come into play).

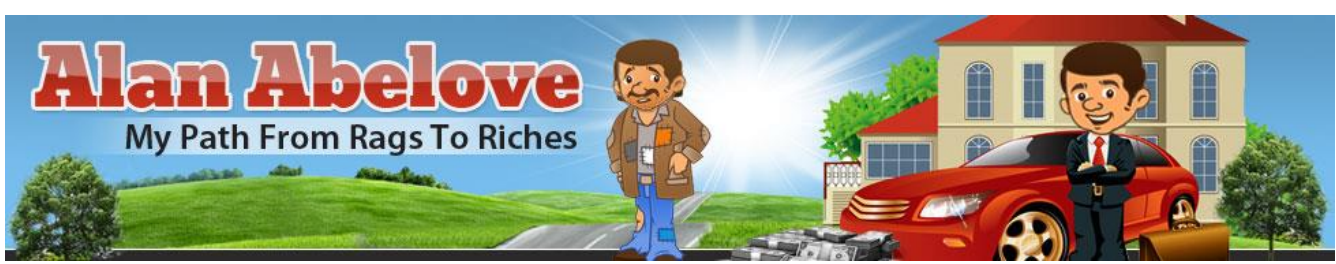

What's great about doing things this way is that you can promote ALL of our OPF's... not just one or two. And you can teach people how to drive traffic to their own My Online Startup, Funnel Franchise, and the others which I am in the process of checking out for you...

And you can give away free software and traffic training via the tools mentioned above!

You can promote more than one OPF per email.

And this can change your life in dramatic fashion.

If you have the money to invest, you'll want to upgrade both your Funnel Franchise and your My Online Startup memberships to the highest level you can afford (watch

the videos in the members areas and Chuck & Mark will explain why)...

Next, you'll want to grab Your Success Advantage for whatever Matthew is going to charge, \$37/month or \$47/month. I am writing this still a couple of days before it goes live. Matthew told me privately that he is planning to charge either \$37 or \$47. I believe that when you get into Your Success Advantage that you will fall in love with it.

At the minimum see it from the free side: [Click here](#)

And then at some point you'll need to move into the Major Leagues of Online Passive Income, and invest in Michael Cheney's and/or Omar Martin's Super Funnels.

Make sense?

So that's what I'd do, if I were you. That's what I'm actually doing.

If you're absolutely serious about your own success...
